

HaloSwift™

The Halo Swift™ is a lightweight evacuation chair, designed for **one person operation**. Its unique track system provides a smooth and controlled evacuation, for both the operator and passenger. With anti-slip grips on the handle enhancing operator control and a footrest with integrated footstrap, the Halo Swift™ provides comfort to the passenger.

ONE PERSON OPERATION

Double handed grip

Enhances user operation and provides greater operator control.

Sewn-in safety belt

Secures the passenger into the Halo Swift™.

Zippered hammock

Dual seating position, zips can be removed to provide a different seating arrangement.

Footrest with integrated footstrap

Provides a secure place for the passenger to rest their feet and the integrated footstrap secures in place.

Contoured headrest

Provides passenger comfort and its integrated strap provides additional support.

Unique friction belt system

Self-braking belt controls smoothness and speed of descent.

Kickstand & rear wheels

Deploy for use on flat terrain.

Castor wheels

Strong 2" wheels enhances operation.
