

ADULT SLING

SAFE WORKING LOAD OF UP TO 45 STONE (285KG)

The ProMove Sling provides a safe and dignified transfer for a mobility impaired individual, from one location to another.

Its innovative design cocoons around the individual being transferred, eliminating pressure and reducing injury.

With a safe working load of up to 45 stone (285kg) and the flexibility to increase the number of operators to comply with manual handling regulations, the ProMove Sling is perfect for in the home or when travelling.

AN ACCESSIBLE WORLD FOR ALL

BENEFITS:

- ✓ Easy to use
- ✓ Lightweight
- ✓ Portable (carry bag included)
- ✓ Compact design

SPECIFICATION:

Safe Working Load	45 stone 285kg 630lbs
Length (Overall)	1130mm
Length (Internal)	800mm
Width of backrest	600mm
Length of seat	495mm
Overall width	1300mm

ADDITIONAL ACCESSORIES:

- **Extension Handles** - allows more than four operators to assist with the transfer and extends the reach of the back handles.
- **Hoist Straps** - four colour coordinated straps easily loop around the handles, to enable the ProMove Sling to be used with a hoist (excluding the Arjo Hoist)
- **Padded Lifting Belt** - a soft 1m belt, with handles at both ends enabling two operators to assist in lifting a passenger's legs (individually).
- **Bugg Strap** - assists the operator in ensuring the ProMove Sling is in the correct position, whilst maintaining minimum contact with the passenger.
